Individual Community Support Sessions (Birth-18 years)

We provide support workers to accompany your child or young person to access facilities within your local community. We can provide support for any number of hours required, during daytime, evenings and weekends. Please note, in addition parents and carers are required to cover their child or young person's direct activity costs.

Individual Home Based Support (Birth -18 years)

We provide support staff to work within your own home. We are a C.Q.C Domiciliary Care registered service. (Minimum session time is 2 hours and this must form part of a community based short break).

Take-a-Break Adult Services

We provide a full adult service in Warwickshire supporting adults from 18 years with an ongoing identified support need and learning disability.

Take-a-Break General Information Sheet

- Take-a-Break's current Charging Rate starts at £14.45 per hour. This will be deducted from your social care allocated hours or invoiced to you directly as detailed within your care plan.
- Any cancellations must be made minimum 48 hours in advance, otherwise a full charge for the booking will be made.
- All sessions are available for each customer to choose from. Restrictions only apply to specific age groups and the total spaces available for the chosen activity.
- All spaces will be allocated on a first come basis. Any other requests will be placed on a reserve list.
- All activities must be booked in advance and may only be available to limited numbers.
- A limited number of off-site activities may require an additional charge. This will be kept to a minimum and information given in advance.
- The site leader will complete a detailed activity plan for each holiday session, providing detailed activity information.
- Requests for transport will be looked at on an individual basis. Take-a-Break will attempt to accommodate each request however, this may not always be possible. All transport charges will be agreed individually and will depend on location and transport type i.e. staff car, minibus, specialist taxi.
- We encourage groups to teach children and young people how to access and use public transport as part of their activities. This will help to improve and increase their mobility and independence.
- Within all settings we are able to provide support for people with complex health care and challenging behaviours, this is subject to assessments being completed.

How to Apply

If you would like to access a place on any of the activities, please contact your allocated service coordinator. They will confirm details, costs and this will be detailed within your service care and support plan.
